growth, high density of population and industrial necessities such as good access routes, were part of the new scenario. 2. Urban planning of industrial cities The huge changes that cities were undergoing, combined with the emergence of the more critical and rationalistic ideas of the Enlightenment, led to a debate about city redevelopment and urban improvements. One of the first traditional ...

The Origin and Development of Markets: A Business History Perspective The origins of the market are obscure, but substantial documentary evidence survives from the eleventh century on-ward, when chartered markets and new towns were established across Western Europe. The expansion of the market system is important for business history because it created new opportunities for business growth ...

"A Culture of Growth is an insightful quest into the economic history of the last five centuries. Mokyra's historical laboratory is early modern Europe, when a small mass of highly skilled artisans, entrepreneurs, financiers and merchants laid the roots of what was to become the Industrial Revolution."

Mokyr, J.: A Culture of Growth: The Origins of the Modern

The History of Strategy and Its Future Prospects 2 Strategy, for most of its 2,500-year history, was one-dimensional. Warmongers were largely focused on avoiding wars by not instigating them and business was mostly focused on building
