The high frequency word lists contain the words found in children's reading books in order of the frequency in which they occur. If students were to learn just the words contained on the very first list (words 1 to 100), they will have learned half of all the words they will come across in children's reading materials!

In this section we solve linear first order differential equations, i.e. differential equations in the form  $y' + p(t)y = g(t)$ . We give an in depth overview of the process used to solve this type of differential equation as well as a derivation of the formula needed for the integrating factor used in the solution process.
