Contrasting Perspectives in Exercise Science & Sports Medicine Immersion Treatment for Exertional Hyperthermia: Cold or Temperate Water? PREVAILING VIEW Our viewpoint in this Contrasting Perspective stems from the primary consideration that: Cold water cools faster than other cooling modalities. This minimizes the amount of time an exertional heat stroke (EHS) victim is severely hyperthermic ...

Perspectives In Exercise Science And Sports Medicine

Without theories, science would be a futile exercise. A theory is a set of propositions that provide an explanation by means of a deductive or inductive system. The three major functions of theory are description, explanation and prediction. Nature and Characteristics of Theory A theory is a proposed relationship between two or more concepts. In other words, a theory is explanation for why a ...
